

2017 - 2018

HOW TO GET STARTED

SIGN UP! Fill out the Intent to Participate form on the website.

WHAT CHANGE? Choose a behavior that if a lot of people did it, it would have a positive impact on the environment.

WHO? Who are you going to get to change their behavior?

WHY? What needs to happen to make these people change? Do they need education? an incentive? an alternative product?

HOW? How will you make this happen? Your proposal must include at least one tangible tool that you would create and use for your project. This can be a policy change, invention, marketing campaign, event, art project, anything!

WORK WITH US! Attend the Incubator Workshop to discuss your ideas with our community experts.

PROPOSE IT! Fill out the Project Proposal Form and make a presentation to our judges.

GO! The best ideas receive funding and get the "Greenlight" to carry out their project in the community and present their results at the Finals.
